

# TABLE OF CONTENTS

<b>PREFACE</b>	III
<b>ACKNOWLEDGEMENTS</b>	IV
<b>INTRODUCTION</b>	VI
Part A: Geographical and Geological Distribution	VI
Part B: Reserves and Productivity	XVIII
Part C: Seismic Signatures	XXII
<b>CHAPTER 1 – PALEOZOIC CLASTIC RESERVOIRS</b>	1
Introduction	1
Utikuma Lake Keg River Sandstone A and Red Earth	
Granite Wash A	2
Utikuma	6
Evi Granite Wash P	7
Otter Granite Wash F and I	11
Mitsue Gilwood A and Nipisi Gilwood A	16
Conclusions	24
References	24
<b>CHAPTER 2 – ELK POINT CARBONATE RESERVOIRS</b>	27
Introduction	27
Part A: Keg River Carbonates	28
Rainbow Field: Keg River HHH, LLL And NN	28
Keg River PP	32
Zama Field: KRV, KRW, KRP2P And KRG	36
Panny	42
Trout	48
Part B: Winnipegosis Carbonates	52
Introduction	52
The Elk Point Group	52
Ashern Formation	52
Winnipegosis Formation	52
Ratner Member	54
Prairie Evaporite Formation	54
The Manitoba Group	54
Dawson Bay Formation	54
Souris River Formation	54
Compaction of Winnipegosis Mounds	54

Salt Removal by Dissolution	54
Seismic Reflection Features of Devonian Rocks in Saskatchewan	55
Seismograms of Winnipegosis Mounds	55
Tableland Anomaly	57
Rocanville Anomaly	62
Allan Mound	63
References	63
<b>CHAPTER 3 – BEAVERHILL LAKE GROUP CARBONATE RESERVOIRS</b>	67
Introduction	67
Ante Creek	68
Goose River	72
Snipe Lake	73
House Mountain	79
Gift	82
Slave	86
Sawn Lake	90
Clarke Lake	91
References	98
<b>CHAPTER 4 – WOODBEND GROUP RESERVOIRS</b>	
Introduction	101
Penhold	101
Leduc-Woodbend	101
Morinville	110
Rich	114
Redwater	118
Obed	122
Sturgeon Lake South	128
References	132
<b>CHAPTER 5 – WINTERBURN (NISKU) RESERVOIRS</b>	133
Introduction	133
Zeta Lake Reefs	134
Apetowun Area	136
Brazeau River Nisku K and S	136
Whitehorse Nisku	141
Bigoray Nisku D and E	141
Pembina Nisku F	141
Bigoray Nisku H and K	152
Apetowun Nisku	152
Seismic Criteria for the Identification of Nisku Reefs	153
References	153

<b>CHAPTER 6 – MISSISSIPPIAN</b>	155
Introduction	155
Alexis	156
Harmattan-Elkton	160
Alida East	161
Turner Valley	165
Blueberry	170
Hummingbird	174
Viewfield	175
Seal	179
References	184
<b>CHAPTER 7 – TRIASSIC/JURASSIC FIELDS</b>	187
Introduction	187
Nig Creek	188
Kobes	192
Spirit River Halfway	196
Rycroft Charlie Lake A	197
Valhalla	202
Wembly Halfway B	207
Sturgeon Lake South Triassic A	211
References	215
<b>CHAPTER 8 – THE LOWER CRETACEOUS</b>	217
Introduction	217
Bow Island Glauconite A	221
Grand Forks Sawtooth WW	225
Countess Upper Mannville D	228
Badger Upper Mannville B	232
Taber Mannville A	233
Westhazel G.P. Sand	239
Provost Upper Mannville BB	243
Hayter Dina B	246
Hayter Sparky A and Dina A	247
Wainwright	253
Provost Basal Quartz C	256
Hairy Hills Colony W	260
Peavey Blairmore	261
Crystal Viking A and H	266
Pembina Ostracod E	270
Pembina-Lobstick Glauconite E	274
Marten Hills Wabiskaw A and Wabamun A	275
References	281

<b>CHAPTER 9 – UPPER CRETACEOUS RESERVOIRS</b>	283
Introduction	283
Carrot Creek Cardium S	283
Pembina Keystone Belly River B	289
Tindastoll Belly River A	294
Conclusions	299
References	299
<b>CHAPTER 10 – REFLECTION SEISMIC STUDY OF A LOWER PALEOCENE COAL DEPOSIT, WABAMUN, ALBERTA</b>	301
Introduction	301
Geologic Setting	301
Data Base	301
Discussion	304
References	304
<b>CHAPTER 11 – 3-D SEISMIC</b>	311
Introduction	312
Workstations	314
3D Survey Design	316
3D Case History	317
Conclusion	317
References	
<b>CHAPTER 12 – VERTICAL AND LATERAL SEISMIC PROFILES</b>	319
Introduction	319
Zero-Offset Case History	321
Regional Geology & Geophysics	321
Separation of Upgoing and Downgoing Waves	322
Deconvolution Panels	322
Inside & Outside Corridor Stacks	322
The Integration of other Interpretaton Data	325
Lateral Seismic Profile (LSP) Case History	329
Regional Geology and Geophysics	329
Zero-Offset VSP	331
Wavefield Separation	331
Deconvolution	331
Inside and Outside Corridor Stacks for Multiple Recognition	331
Non-Zero Offset (Lateral Seismic Profile)	331
Hodogram Analysis	331
Interpretation	340
Conclusions	344
References	344
