

2018 Junior Geophysicists Forum Registration

October 10th, 2018

Calgary Petroleum Club, Devonian Room

4:30 pm - 7:30 pm

epp@cseg.ca

Attendees will be transformed from spectators into active participants, drawing on the collective knowledge of the group to produce new solutions and avenues for exploration through small group discussions. Our four topics of discussion are:

- The rising use of data analytics tools
- The impact of our science on the corporate bottom line
- Employee - employer relations, perceptions and organizational dynamics
- Navigation through today's energy policy landscape

You will be assigned to one of the four topics at the event according to the preference you provide below.

***The event is free for CSEG members; however, we ask that you bring a Food Bank donation (item or cash)

First Name:

Last Name:

Email Address:

Organization or University

Experience Level:

Undergraduate Student

Graduate Student

New Graduate (0 – 5 years)

Geophysicist, under 5 years experience

Geophysicist, 5 – 10 years experience

Senior Geophysicist, 11 years +

Geologist

Engineer

Please rate your desire to participate in each topic.

First Choice Second Choice Third Choice Last Choice

Energy Policy Roadmap

Automation and the Future of Work

Economic Value

New Data Tools

Please suggest questions or topics you would like discussed under any of these themes.
