

2022 Meritorious Service Award – Ruth Peach

Ruth Peach has made a prominent and lengthy contribution to the CSEG. Her career background is in geoscience business development and marketing, and she has a BSc (Hons) in geology. Since 2016, her volunteer work has included being a technical editor for the CSEG's RECORDER magazine, as well as member of the VIG Committee, whose main aim is to take geophysics to engineers. From 2016-2019, she volunteered as vice-chair of the geoscience subcommittee of the APEGA Practice Standards Committee. Ruth's role as technical editor of the RECORDER is praiseworthy. For seven years, she has brought forth new authors, edited articles and interviews, and contributed to website design and content. She speaks her opinion, which can at times require courage, and her opinion is highly valued by all. Editorial work, like cleaning up after a church supper, often goes unnoticed by the less observant. We strongly nominate Ruth Peach for the 2022 Meritorious Service Award.

RECORDER Committee

Brian Schulte (Chief Editor)

David Gray, Steve Jensen, Draga Talinga, Satinder Chopra (Technical Editors)

Kristy Manchul (Regular Columnist)
